RESUBMISSIONISTS

THE CONVENTION AT THE OPERA HOUSE YESTERDAY

Largely Attended by the Re submissionists of This County.

Fully Three Dozen People Present-Including a Keg of Beer.

The announcement that a convention of the resubmission Republicans of this city and county would take place at the open bouse yesterday, had the desired effect of bringing together about all those of ou citizens who at heart favor the resubmission of the prohibitory question, and by three o'clock the opera house steps were nammed with Fritz Snitzler, Geo. Steenrod. T. J. Shelton, Dick Walker, Boss Donneldy, and Judge Sluss, the latter appearing as spectators. The junitor of the building was either asleep or had failed to give proper cognizance to the important gathering, and the doors were locked. Being enlisted in a grand and glorious cause that is intimately related to the best interests of the coun try, there was but one course left onen to the enthusiastic resubmissionist. A small boy was assisted through a back transom the doors of the opera house opened, but alas! this all took time, and when the front doors moved ajar the immense crowd had melted away to T. J. Shelton and a bob-tailed deg. This seemed hard but not wholly discouraging. The former bastened away, secured a band of music, which soon playing a beautiful funeral dirge, mistaking the nature of the meeting, but it had the effect of drawing quite a large crowd, as all Democrats within hearing of the melancholy notes at once imagined that the services in some way related to that party. By about 4 o'clock the vast crowd that had gathered on the house tops, streets and sidewalks, numbering thirty five all told entered the opera house, scated themsevie and nervously awaited the grand entrey, which was heralded by T. J. Shelton call ing the assembled hosts to order and nom inating Geo. W. Steenrod for chairman There being some doubt as to whether Steenrod was the choice of the meeting, : division of the house was called for, which resulted in two noes and three ayes, and as carpenters and masons, are smiling and Geo. Steenrod was conducted to the chair

A. C. Husey moved that the chair appoint a committee of three to name seven delegates to attend the resubmission convention, which will be held in Topeka on the 20th instant. The motion prevailed, and the chair appointed as such committee.

Crop Prospect-Wheat Prices and the McKim Interview.

Owing to the recent rains, which have caused the roads to be very muddy, the de livery of grain and stock at this point yesterday was very light. For Saturday it was a very dull day. The farmers who came to the city seemed to have come in mostly on the railroads, and put in the day discussing political questions and the probable prices of grain in the future. The McKim interview, which was published in yesterday's EAGLE, and a synopsis of which came in the Associate Press dispatches in the dailies of the state, formed a prolific source of discussion. Very few people who are acquainted with Mr. McKim and knew him to be a staunch Democrat ever dreamed that anything said by him could be construed in favor of the Plumed Knight of Maine. But when it comes to detaming the triends of his boyhood, his respect for Blaine and his veneration for an institution of learning in which a beloved wife, long since in her grave, had passed her girlhood days, and around which cluster
